

Zap-It Chalk & Grime Buster

Heavy-Duty Cleaner & Chalk Remover

*Removes Grease, Grime & Oxidized Paint
for Refinishing & Cleaning Roll Doors*

Zap-It Chalk & Grime Buster is a powerful low suds cleaner that can be used to remove oxidized paint, grease and grime in preparation for refinishing roll doors or diluted for general cleaning applications.

- **Door Refinishing** - removes chalk (oxidized paint), grease and grime in preparation for refinishing roll-up doors*
- **Powerful Cleaning** - dilute as needed for tough cleaning jobs
- **Economical** - 1 gallon of concentrate makes up to 32 gallons of solution

*When using at stronger concentrations, on heavily oxidized doors that you intend to clear coat, be aware that you may have to repaint if there isn't enough intact paint beneath the oxidation.

Use **Zap-It Chalk & Grime Buster** with our refinishing systems to help restore your door's color and shine!

1. **Chalky Door** - with typical levels of oxidation, dirt and scrapes ready to clean with **Zap-It Chalk & Grime Buster**.
2. **Cleaned & Touched-Up** - chalk and dirt has been removed and touch-up scratches with our aerosol **Roll Door Touch-Up Paint**.
3. **'Like-New' Finish** - with **Door Restore** clear coat or one of our repainting products.

Tools Needed for Chalk Removal:

- Garden sprayer or other pump sprayer for applying **Zap-It Chalk & Grime Buster**
- A very soft "RV" or auto cleaning brush
- Extra Fine or non-abrasive "Scotch Brite®" or microfiber type pads (when refinishing with a clear coat).
- Medium "Scotch Brite®" type pads (when refinishing with paint or a pigmented coating).
- Small power washer or garden hose with a high-quality nozzle for rinsing the doors.
- 5 gallon buckets
- **Zap-It Chalk & Grime Buster**

Zap-It Chalk & Grime Buster - Dilution Recommendations

Usage Scenario	Dilution Strength
Extreme oxidation removal in preparation for refinishing	Full Strength or up to 1-1 with water (Using full strength may remove paint, use with caution if clear finish is being considered as repainting may be required)
Heavy grime & oxidation removal in preparation for refinishing	Up to 32 oz per gal of water
Heavy duty grime removal (No refinishing to be performed) <i>We recommend a final rinse with Wash 'N Roll for a no-streak finish.</i>	Up to 16 oz per gal of water
General cleaning (No refinishing to be performed). <i>We recommend a final rinse with Wash 'N Roll for a no-streak finish.</i>	up to 4 oz per gal of water
